## Walker-Strut® Clamp

UNISTRUT  
CHANNEL FOR  
LINE CLAMPS

### GENERAL INFORMATION

The new controlled squeeze shoulder stud practically eliminates the possibility of overtightening, resulting in uniform clamp pressure. Vibration and shock is dispersed uniformly throughout the system due to the equal clamp pressure.

### APPLICATION

Used to reduce vibration, noise, and shock in fluid systems. Installation is easy: Mount the base channel, position the clamp, and tighten!

## Econo-Isolator Clamping System

### GENERAL INFORMATION

The clamp is a low cost, easy, way to attach tubing and hose to equipment without the use of special channels. Just bolt the clamp directly to machine frame or structural frame.

### APPLICATION

Used to reduce vibration, shock and noise in fluid systems.
